

How do I stop the bleeding? My dog's not breathing! What can I do? Is 101 temp normal?

Pet First Aid and CPR is like insurance, we hope we never need it, but are grateful to have it when we do. According to the American Animal Hospital Association, if just one First Aid technique was applied, 25% more pets would survive a critical care situation. Learn what you can do to help your pet in an emergency.

A portion of the proceeds will be donated to the Rabies Challenge Fund. For more information or to donate directly to the fund, go to [www.rabieschallengefund.org](http://www.rabieschallengefund.org).

When: Sunday, January 9, 2011, Noon-5pm  
Where: WAG Agility  
7705D Industrial Court
